

Fabius-Pompey Guidance Office

Middle School

Grades 6-9

Daniel N. Piorkowski

High School

Grades 10-12

Laurie L. Jordan

The guidance office meets with students regularly throughout the year in regard to student issues, academic and personal counseling, scheduling of classes, and overall student progress.

Career Resources

In the guidance office career area, students may use a variety of resources to explore specific occupations. The “Occupational Outlook Handbook” provides hundreds of job descriptions for all types of careers. The book series “Great Jobs” includes information about occupations for students who have college majors in these areas:

Anthropology	Engineering
Music	Math
Business	Accounting
Psychology	Political Science
Theater	Sociology
Communications/Broadcasting	Computer Science
English	Forestry
Foreign Languages	Prelaw
Geology	Sports & Athletics
History	Zoology

Students may also access the guidance office computer software program “Choices,” which links college majors to specific job opportunities. Students may also search for occupations using selected criteria.

Did You know... that students begin classroom activities in 7th grade about careers, and continue those activities right up through 12th grade? Understanding the world of work, their own strengths and their interests are an overriding theme of each year
