ELEMENTARY SCHOOL NEWS

by Mrs. Cuipylo, 2nd Grade Teacher

Maple Syrup Contest

New York Agriculture in the Classroom, in partnership with the New York State Maple Foundation, conducted a maple syrup contest for classrooms across the state. Students experienced the process of collecting sap, learned the steps to boiling the sap into maple syrup and submitted their product for judging against other schools.

A panel of expert maple syrup judges evaluated maple syrup submissions and selected the top producers for the '22 School Yard Sugaring Maple Contest. Mrs. Cuipylo's 2nd grade class won second place in the Elementary School Division for maple syrup.

Mrs. Cuipylo submitted a picture that was featured the Schoolyard Sugaring Maple Contest Photography Exhibit and was on display May 21 through June 19 at View Arts in Old Forge, NY.

TECHNOLOGY/AGRICULTURE/FFA NEWS

by Mrs. Odell and Mrs. Ballard, Teachers

High School Technology

High School Technology is very fortunate to offer three courses to students: Woodworking, Technical Drawing and Design and Drawing for Production (DDP). Woodworking is an upper-level course open to students who are pursuing advanced work in the concepts of design, carpentry and construction. Some projects that were completed this year include leopard benches, adirondack chairs, clocks, ribbon rack and nail boxes. Students were able to focus on hands-on learning while working in a shop space safely.

Technical Drawing and DDP provide students with a working knowledge of 2-D and 3-D graphic representation. This year was an exciting time for students in both classes because they were able to dive into and understand drawing of objects in isometric, orthographic and 1-point perspective. After understanding the basic principles of drawing, they jumped into designing different woodworking projects including shelves, barn quilts, clocks and geometric designs.

Middle School Technology

Middle School Technology covered a wide range of topics this year that kept the 7th and 8th graders engaged with hands-on learning during their quarter and half-year segments. During Technology, students learn about coding, motion, design, technical drawing, agriculture technology and woodshop. Projects that were enjoyed included stomp rockets, egg drop, wood burning, birdhouses and greenhouse design. Technology is rapidly changing, which allows these students to cover a wide range of topics that aligns with how technology is evolving in the real world.

High School Agriculture

This year has been an exciting one for High School students! Students were able to choose from four half-year high school courses, three of which were brand new this year! In Agriculture Power and Technology (APT) students were exposed to mechanics, power, technology and career options in the world of agriculture. While participating in APT, students experienced mechanical and engineering concepts while performing hands-on activities, with two to three labs per week. Some projects that students completed included a friction lab, a concrete lab, where students got to make and test their own concrete and multiple energy labs that included the construction of windmills.

In Agriculture, Food and Natural Resources (AFNR) students explored careers in the areas of agriculture, plants, animals, the food industry and natural resources. Students learned units in communication, the science of agriculture, plants, animals, natural resources and agricultural mechanics. Students were able to survey the opportunities available in agriculture and natural resources, conduct research, analyze data, work in teams while doing labs based on soil testing, circuit boards, cannoli making and much more!

The first year of Food Science was exciting this year! Students gained a better understanding in the areas of food sources, product testing and development, food preparation and preservation and careers related to the food industry. Students investigated areas of food science including food safety, food chemistry, food processing, food product development and marketing. Some projects included a bacterial growth lab, meat fat lab, starch labs and much more!

In Animal Science students studied history and domestication, handling and behavior, anatomy and physiology, nutrition, health, selection and marketing. Some classroom activities included an animal handling lab, digestion murals and grooming.

Middle School Agriculture

Middle School students had the opportunity to explore agriculture through quarter-long segments. During the ten weeks, 6th, 7th and 8th graders spent time learning about FFA, communication, animal science, plant science, natural resources, food science and floral design. Some highlights of the year included making pumpkin and holiday centerpieces, courtesy of Springside Farms and Luchsinger's Tree Farm. Students also did labs related to butter making, apple pie making, tree identification, dairy feed identification, vegetable planting and much more!

FFA

The F-P Chapter of Future Farmers of America has grown significantly throughout the past year. We officially received our National Charter in the fall, so we are now recognized as an official part of the organization. We have roughly 25-30 Middle School and High School members, as well as 6 officers. Our chapter meets twice a month to discuss upcoming events, both local and state, as well as socialize and participate in team-bonding activities. We did two fundraisers this year and were fortunate enough to receive a few donations from local businesses and the Onondaga County Farm Bureau. We had students participate in state competitions and place on the state level. In April, we went on farm tours to local farms and agribusinesses. Students were able to meet community members, learn about farm/business and job opportunities in their future. In May, we took 14 students to the NY State FFA Convention in Syracuse. Students competed in events, went on diverse tours, attended leadership workshops and interacted with over 2,000 FFA members. At the end of May, we celebrated all of our FFA members' accomplishments at our first annual FFA banquet. Congratulations to Elsa Hull who participated in Sr. Creed at the State level and placed third. We are very proud of your accomplishments!

Health Examinations

New York State law requires a health examination for all students entering the school district for the first time and/or when entering grades **Kindergarten, 1st, 3rd, 5th, 7th, 9th and 11th**. A New York State licensed physician, physician assistant or nurse practitioner must complete the examination. It is required to be on the **NYS health examination form**. Our school physician will be available for examinations. If a copy is not received, the school nurses will contact you. Vision, hearing and scoliosis are mandated screenings on health examinations in specific grades. If screening is not documented on the health form by the HCP, the school nurses are required to complete the screenings.

All physical examinations completed for the 2022-2023 school year should be mailed or emailed to the school, attention to the school nurses.

A dental certificate which states that your child has been seen by a dentist or dental hygienist is requested but not required at this time.

Immunizations

New York State Law Section 2164 requires certain immunizations to enter and attend school. Proof of current vaccinations is **required by the first day of the school year** for attendance. Please follow the NYS Department of Health immunization schedule: *School Year New York State Immunization Requirements for School Entrance/Attendance*.

In addition:

- Students entering **6th grade** or by 11 years of age must have the *Tdap* vaccine and 2 doses of the *Varicella (Chickenpox)* vaccine.
- Students entering **7th grade** are required to have one dose of the *meningococcal* vaccine.
- Students entering **12th grade** are required to have 2 doses of the *meningococcal* vaccine or 1 dose if the first was received at age 16 or older.

COUNSELING OFFICE NEWS

by Mrs. Barnum and Mr. Piorkowski, School Counselors

Congratulations to the graduating Class of 2022!

Counseling Office Summer Hours

Counselors will be available from the closing of school through Friday, July 8. Any student who fails a course should contact their counselor and arrange to repeat the course if necessary, or attend summer school. The Counseling Office will be open part time during the summer. Please call (315) 683-5460 before stopping in.

In late August until the beginning of school, counselors will again be available by appointment.

New Student Registration

Any family wishing to register a new student for the 2022-2023 school year should contact Jean Gasparini in the District Office at (315) 683-5301.

We were pleased to bring back in-person Scholastic Book Fairs to Fabius-Pompey Elementary. Thanks to a welcoming school community and the enthusiastic efforts of our volunteers, the fair was a resounding success. Our sales totaled \$5773.67 and we were able to give \$2886.84 worth of books to teachers for their classrooms. Thank you to all who helped bring so many books to our community. If you would like to be part of next year's book fair committee, please contact Laurie MacPherson at macpherson.lj@gmail.com.

FABIUS-POMPEY CENTRAL SCHOOL DISTRICT ATHLETIC HALL OF FAME

The Fabius-Pompey Central School District is working toward inducting athletes, coaches, teams and individuals to the Fabius-Pompey Central School District Athletic Hall of Fame. The purpose is to motivate current athletes, connect the past to the present and develop pride in the rich traditions of Fabius-Pompey Athletics. In addition, the Hall of Fame will recognize and honor the accomplishments of athletes, teams, coaches and individuals who continually strived for excellence during their time here at F-P.

Athletic Hall of Fame induction ceremonies are held annually. Athletes, coaches and other individuals will be inducted in even years (2024, 2026, 2028), and teams will be inducted in odd years (2023, 2025, 2027). An induction ceremony will be held every spring.

The Hall of Fame committee is seeking nominations for consideration for future inductees. Nomination forms can be found on the Fabius-Pompey website at www.fabiuspompey.org under Athletics. Nominations are due no later than February 1 for inductions for the current year. Please send completed forms to:

***Congratulations to our scholarship winners,
Nicholas Skeval and Alyna Beardslee!***

***Congratulations to all of our 2022 senior
award winners and athletes!***

Ways to support your students and teams:

- Join Sports Boosters! We meet monthly in the Middle School-High School cafeteria. Come join us and see what we're about. Meeting dates and contact information are available on our website.
- Return your cans and bottles to Fabius Bottle & Can. Ask them to donate your refund to F-P Sports Boosters.

Visit fpsportsboosters.org for our meeting dates.

F-P AFTER-PROM COMMITTEE NEWS

by Mrs. Beardslee, Committee Member

F-P After-Prom Committee

"Working together to keep our kids safe"

Thanks to everyone who volunteered or supported the After-Prom Party this year!

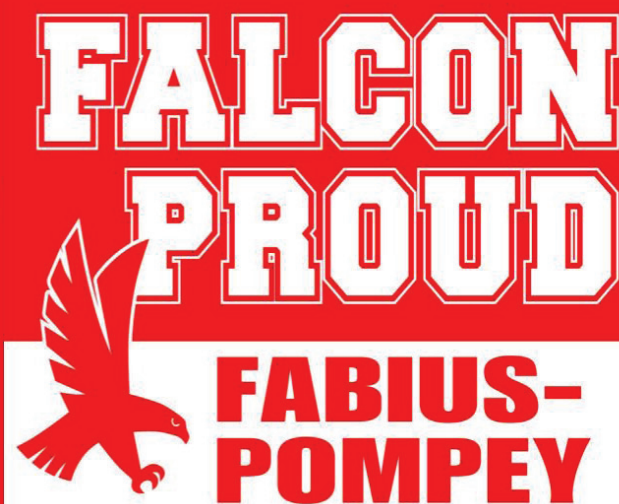

We need support for next year. The F-P After-Prom Committee is a parent group that organizes the After-Prom Party. This is an admission-free event that is held after the Prom with entertainment, food and prizes offered as incentives for students to attend – even those who don't attend Prom. Our goal in doing this is to provide a fun and safe place where students can come and enjoy some more time with their friends on Prom night.

After this year, the majority of our parents will be moving on to new adventures, as their kids are graduating. We are reaching out to any parents of upcoming junior and senior students to keep this great event going. Without volunteers to run this program, this event will not be offered in the upcoming years. Please contact us if you can help. Feel free to reach out on our Facebook page, or contact Cori Taylor at ctangeli@hotmail.com or Kathy Beardslee at kathycb1@gmail.com.
